Benefits of KE awnings

KEY BENEFITS OF KE AWNINGS

KE makes awnings that range in size from 3' wide up to 46' wide to meet any requirements you may have.

Our largest awning has a projection of 15'11".

KE patented roller tubes are designed to prevent unwanted folds and creases during the rolling process.

KE awnings are designed with minimalism and a keen sense of aesthetics to enhance your home or business.

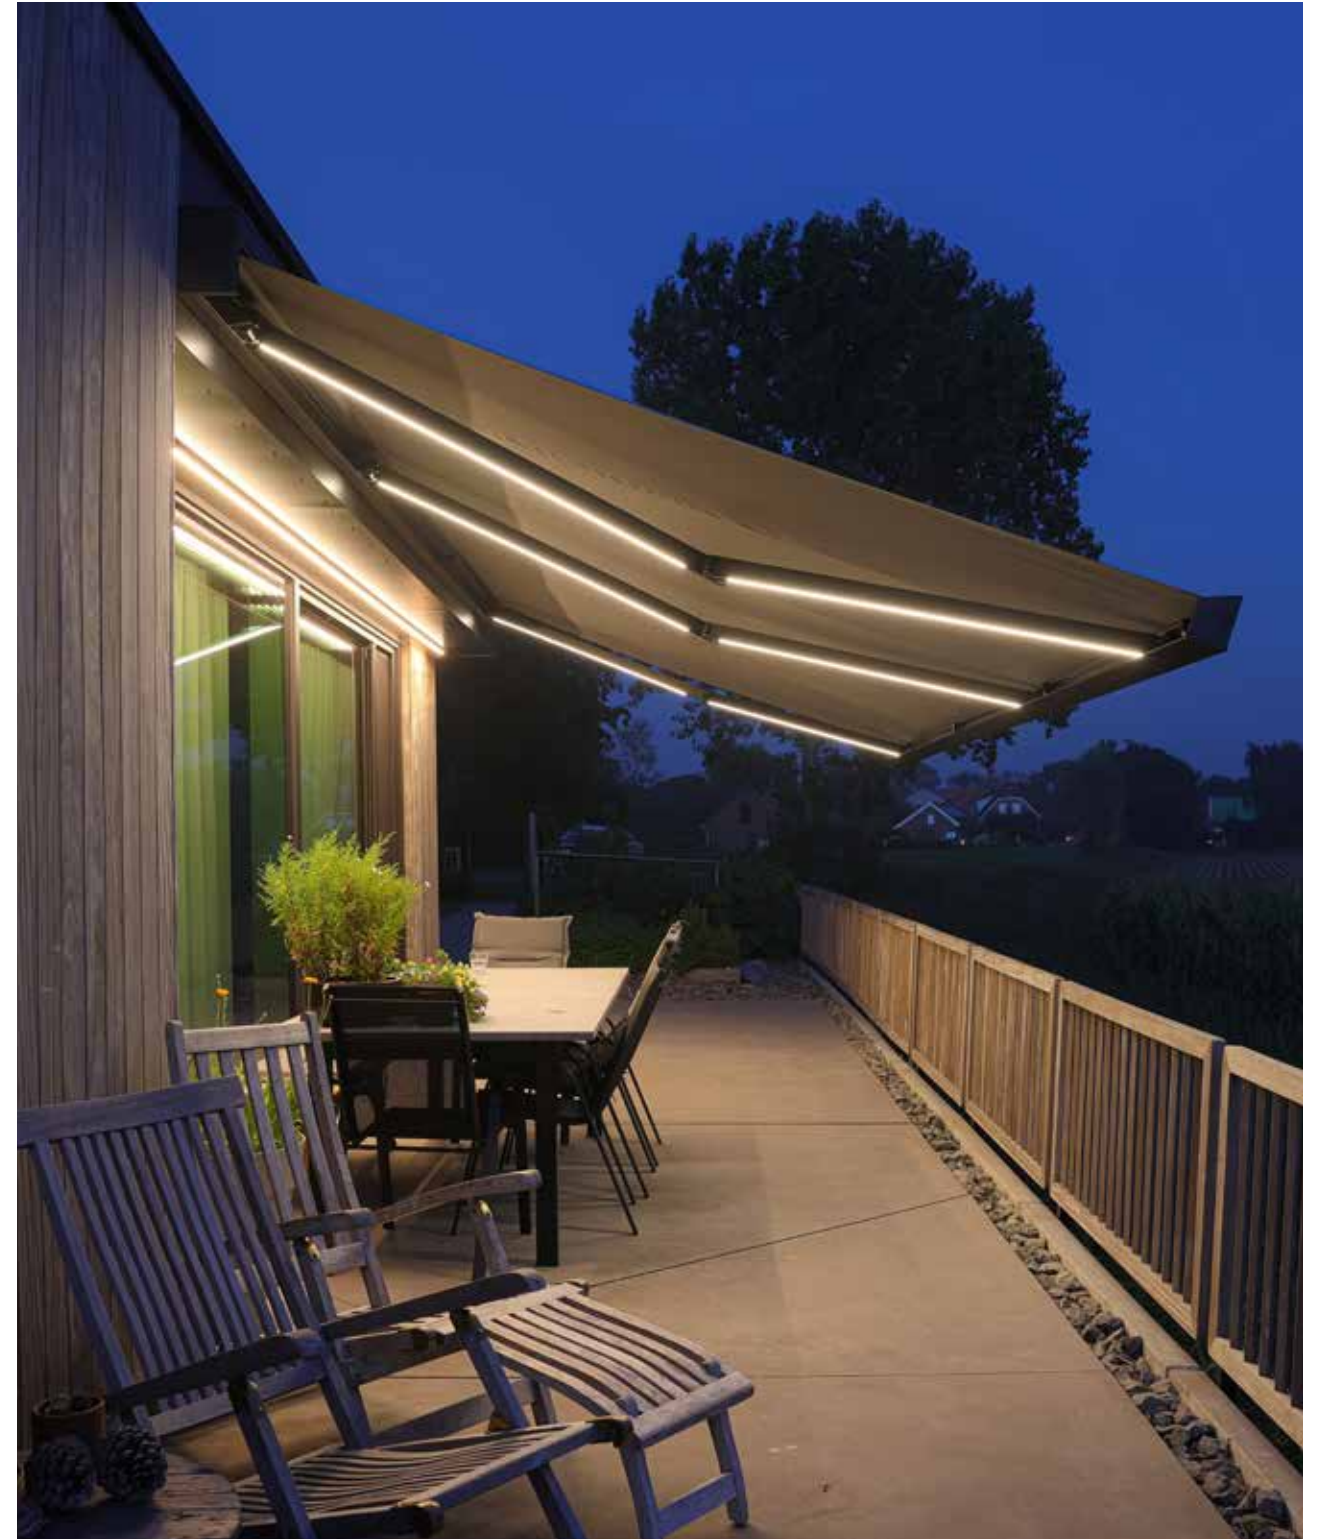

KE awnings use durable acrylic fabrics from major manufacturers that specialize in high performance outdoor materials.

A variety of automatic sensors is available to help protect your awning in the event of wind, rain or freezing temperatures.

Four KE models - Qubica, Bella Plus, Domina and Elite Plus have been certified for use by Florida Building Code 3105.

KE awning arms are tested to 30,000 open/close cycles.

Width range:

Accessories

Standard Arm with Integrated LED

Somfy LED 24v DC Controller

LED Dimmer with Remote

Pre-assembled LED Arms

These retractable awning arms include factory-installed, integrated LEDs that provide a sleek, clean appearance and help speed assembly of the unit. The soft, dimmable LED light provides an enjoyable ambiance to enhance your outdoor living space. These pre-assembled LED Arms are available on all sizes of Qubica, Bella Plus, Domina and Elite Plus awnings.

Somfy's new dimmable LED Controller can control up to two pairs of retractable arms per controller.

Pre-assembled LED Strips

Factory-installed integrated LEDs make these optional light strips quick and easy to install to add practical beauty to any KE shading system.

Motion Sensor

Protect Your Investment

A Somfy wire-free motion sensor can automatically close the awning to help protect your awning from damage caused by high winds. Available in three colors.

KE

Retractable Awnings 47

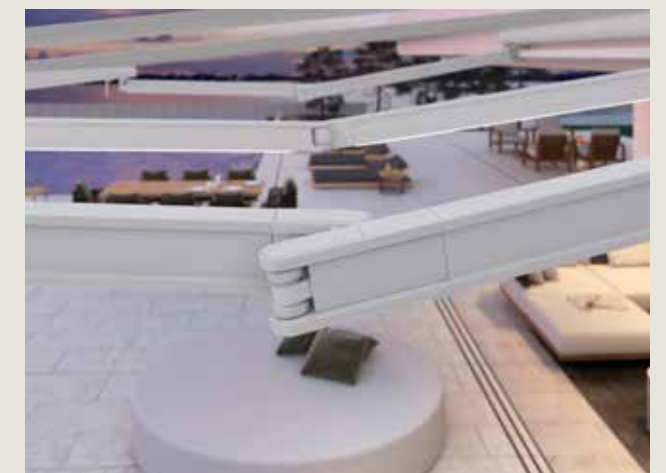

Rain Sensor

The Ondeis® WireFree RTS Rain and Sun Sensor is a solar-powered combined rain and sun sensor. Completely wireless, it uses optical rain-sensing technology to measure rainfall and sends an wireless command to close the awning when rainfall exceeds the user-selected threshold. The sun-level sensor sends a command when sunlight exceeds the user-selected threshold.

Aki arm option for Qubica

Elbow joints are designed with geometry that maintains uniform tension on the fabric during open and close, so the fabric lays flat and looks great even when the awning is partially open.

Fabric Options

Fabric Collection features at a glance:

- 100% Solution-Dyed Acrylic
- Water Repellent & Mildew Resistant
- Sewn with Gore Tenara Thread
- 10 year Limited Warranty: Sunbrella, Para Tempotest, Sattler
- 5 year Limited Warranty: Dickson
- International Trend Setting Fabrics
- Easy Clean Finish
- Energy Savings
- High TEX Quality

AWNING FABRIC OPTIONS

The Benefits of Acrylic, Screen, or Clear Vinyl

Whichever product you choose, you can be assured that your new Retractable Awning will provide years of worry-free enjoyment.

All our acrylics are first grade fabrics, inspected to ensure your satisfaction, and are suitable for all types of awnings.

We offer a wide selection of colors and patterns from around the world, allowing you to bring those styles to life at your home to expand your outdoor living spaces.

Our premier line fabric collection features unique styles from the European design collections of Sattler and Para along with North America's best-selling outdoor use acrylic, Sunbrella.
