SHADE SOLUTIONS

SOLAIR® COMFORT: Retractable Awning

ADD A ROOM TO YOUR HOUSE.

Enjoy your outdoor space like never before with Solair® Comfort. Sit in cool comfort or bask in the sun with this easy-to-use, retractable awning. Add beauty to your home. Reduce your energy bills and protect your furniture against harmful UV rays. It's all possible with this affordable shade solution from the shade experts.

STANDARD FEATURES

Frame: All aluminum frame components are electrostatic powder coated to provide a corrosion-resistant, high-quality finish.

Arms: Arm control features galvanized double steel cables wrapped in PVC for corrosion resistance and long life.

Hardware: Durable die-cast arm and hinge are engineered for the Comfort's projection. Extruded "H" style wall brackets provide strength and allow for less vertical mounting space.

Performance: Earned TUV Certification for its quality, durability and workmanship.

Front Bar: Front bar attachment has dual-action feature that increases flexibility and reduces strain on the awning during a wind gust.

STYLING

Frame Colors:

WHITE LATTE

Fabric Options: Hundreds of fabric choices from Sunbrella® and Dickson® brands.

AVAILABLE SIZES

Widths: 11 feet 9 inches, 15 feet 6 inches, 19 feet 3 inches.

Projection: 10 feet 2 inches.

MOTORIZED OPERATION

Optional motorized operation available and recommended for ease of use.

OPTIONAL FEATURES

Remote Control: Allows you to operate your awning from up to 65 feet away.

Wireless Wind Sensor: Automatically retracts awning upon detection of damaging winds.

Protective Hood: Protects fabric and motor while providing a finished look.

WARRANTY

Fabric: Fabric: 10 Years (Standard Fabrics)
5 Years (Decorative Fabrics)

Frame: 5-year warranty.

Motor: 5-year warranty.

All warranties are good from the day of purchase.

DID YOU KNOW?

IN A RECENT SURVEY OF AWNING OWNERS:

91% said they would buy one again.

72% said the awning completely solved their sun and heat problem.

97% said they were satisfied with their awning.

It's Cool.

A Solair retractable awning will cool your deck or patio by up to 20 degrees. For additional comfort, specially woven fabrics are used that allow air to circulate freely instead of building up under the awning.

It Looks Fabulous.

When extended, a Solair awning will make your outdoor space sing with stylish Sunbrella fabric and a graceful frame design. When retracted, the awning's sleek profile will blend in beautifully with your home's architecture.

It Expands Your Living Space.

A Solair awning creates a cool, comfortable outdoor living area that you can use any time of the day. You'll have more usable space for entertaining, hanging out with family and friends, or just relaxing with a cool drink. It's like adding a whole new room onto your house.

It's Made with Sunbrella Fabric.

Solair awnings are made exclusively with beautiful Sunbrella fabrics. The most trusted, most used brand of outdoor fabrics on the market. They're fade resistant, extremely durable, and come with a 5-10-year warranty. Plus, there are hundreds of stunning designs that you can choose from to bring your outdoor living area to life.

It's Versatile.

Unlike screened porches and sunrooms, Solair awnings easily retract and extend, allowing you to enjoy your deck or patio however you desire – covered or uncovered. Want to have a spur of the moment lunch outside? Extend your awning at the push of a button to create a cool outdoor dining room in seconds.

It Blocks Harmful Rays.

Solair awnings block up to 98% of harmful UV rays, even on the sunniest days. Not only that, Sunbrella awning fabrics have earned the "Seal of Recommendation" by the Skin Cancer Foundation. So you can rest assured knowing your new outdoor haven will be a safe one for you and your family.

It Lowers Energy Bills.

A Solair awning can lower the indoor temperature of your house by as much as 15 degrees. That could save you up to 60% on the cooling portion of your energy bill.
